

Kathy's Care Cards Special Edition

"... an insightful, candid, and encouraging body of information and example that is enthusiastically recommended reading for anyone having to deal with cancer in themselves, in their families, or in their friends."

-Midwest Book Review

"Infused with strength and dignity, this book tells the stories of ordinary people and caregivers transformed by the impact of a cancer diagnosis. A must read for patients, nurses and all those involved in the care and support of cancer patients... full of thoughtful, practical and humorous ideas to diffuse the fear and help the healing process."

-Cheryl Biederman, RN, Patient Navigator, Jan's Place

While most cancer patients and caregivers recognize the destructive physical nature of cancer, few realize the psychological and emotional challenges that this disease may present. *Cancer – How will I get through this? Stories of Hope from Survivors and Caregivers* is a collection of short vignettes and accounts from a number of cancer survivors and caregivers who have dealt with a wide variety of cancers. Through the telling of their stories, they reveal the psychological and emotional challenges they faced and overcame, challenges that are common to others dealing with the disease.

Cancer

How will I get through this?

Stories of Hope from Survivors and Caregivers

Kevin Molloy

"Everyone's journey through cancer is very different and very personal. The one thing that makes them all similar is the challenge presented to the body and the spirit. Kevin does a wonderful job weaving together stories of brave individuals who have faced their own personal diagnosis of cancer. This book will capture your heart and offer hope to those who may be facing similar journeys."
